

Harvest Operations Corp. is a diverse energy company, based out of Calgary, offering exposure to conventional upstream oil and natural gas production and SAGD operations. We are focused on identifying opportunities to create and deliver value with an active development program and a technical approach taken to maximize our assets. Harvest is committed to protecting the health and well-being of our people, the public and the environment through every decision and action taken each day.

Harvest has an opening for a **Student Power Engineer** reporting to the Shift Lead. This is a term position, for up to 6 months depending on program requirements, located at the BlackGold SAGD Facility near Conklin, AB. The successful candidate will reside in a camp facility on a rotational basis.

Key Responsibilities:

- Monitor equipment performance, take corrective action, and initiate work requests for area of responsibility.
- Complete routine operational duties, including sampling, testing, reporting, and monitoring
- Follow procedures and standards pertaining to SAGD operations.
- Assist in safe work procedures and perform equipment Lock Out/Tag Outs.
- Troubleshoot equipment and process performance issues.
- Committed to best practices in health, safety and environmental management.

Qualifications

- **Valid 4th Class Power Engineering Certificate of Competency** and registration in a program that leads to a 3rd Class Power Engineering Certificate of Competency.
- Valid Class 5 Operator's Licence, or equivalent.
- Experience in an industrial work setting is an asset.
- Ability to read and interpret facility drawings.
- Self-motivated with a strong work ethic, good communication skills, and a positive attitude.
- Proficient with personal computers and software applications.
