- Home everyday

***As advocates of equal opportunity, we welcome applications from individuals of all backgrounds. We firmly believe that diversity fosters innovation and contributes to the success of Arrow.***

### Responsibilities

As an Arrow mechanic, you will perform skilled tasks in the mechanical repair and maintenance of tractors, trailers and mobile equipment.

- Provide routine maintenance on tractors, trailers and mobile equipment such as forklifts and loaders
- Check all equipment for proper performance and inspect equipment to detect faults and malfunctions
- Maintain safe working conditions and adhere to Occupational Health and Safety regulations
- Perform mechanical repairs on equipment in the shop and road calls when required

- 
- Diagnose any faults or malfunctions using computerized and other testing equipment to determine extent of repair that is required.
  - Perform incidental welding repairs on equipment.
  - Operate automotive servicing equipment, e.g. A/C recycler, etc.
  - Maintain a working knowledge of changes in technology and repair techniques

## You Possess

- Journeyman's certificate, Red Seal, or equivalent qualification
- **Apprentices welcome to apply! Ask us about our Apprentice Support Program**
- Clean driver's abstract with no suspensions
- Proven mechanical abilities in hydraulics and electrical, including schematics and diagnostics
- Experience with routine maintenance operations
- A positive attitude
- Strong safety mindset
- Solid interpersonal skills that allow one to work effectively in a diverse working environment
- Ability to deal with people tactfully and professionally at all times
- Ability to work well under pressure
- Ability to pass a pre-employment drug screening
- At least two job references
