

JUNE 2018

Congratulations to Morganne Harding, Office Administration Program student for winning Gold at Provincial Skills and Bronze at Skills Canada Nationals.

Morganne competed back to back between May 31st and June 5th in the IT Office Software Solutions competitions.

Over two full days, Post-Secondary students are evaluated based on their advanced skills and abilities solving a variety of business problems in word processing, spreadsheet, database and presentation tasks using MS Word, Excel, Access and PowerPoint programs.

“We were thrilled to have a Business student compete in this year’s competitions,” exclaims North East Regional Skills Coordinator, Janice Bryks. “Winning two medals is certainly something to acknowledge and celebrate.”

“Morganne was an exceptional student. Her dedication, perseverance, problem solving, and attention to detail were evident from day one.

We are so proud of her accomplishments. She was the perfect ambassador for our Business programs and Portage College as a whole,” said Business Instructor, Barb Colliar-Brown.

Morganne says Portage College helped to refine her competition skills.

“The tasks required being organized and having good time management – things I enjoy.”

Today, Morganne is gainfully employed. During her three-week practicum at a local Bonnyville business, the company offered her a permanent job.
