

Green Oasis Services

Employer Location: Edmonton

Commercial Field Applicator (Summer Student)

Green Oasis Services – Commercial Field Applicator Job description Green Oasis provides fertilizer, weed control, tree care and vegetation management services to residential, commercial, municipal, and industrial customers throughout Alberta. We've been serving Alberta since 1994. The position of **Field Applicator** will identify weeds, assess lawns, conduct fertilizer and herbicide applications, and maintain accurate records while ensuring a high commitment to safety. **This is the perfect summer job for post-secondary students interested in environmental sciences, landscape management, oil & gas, or who want to maximize their earning potential for the summer. We hire from all faculties and programs, wherever we find the best candidates for our team.**

Responsibilities · Fertilizer and or herbicide applications using truck-mounted sprayers, backpack sprayers, granular spreaders and UTV sprayers (if qualified). · Defensive driving of 3/4 to 3-ton service units in the city and surrounding rural areas, as well as long highway drives and gravel roads. · Navigation using a combination of mapping applications and GPS. · Precise record keeping and clear communication. Attention to detail is a must. · Active participation in a safety conscious work environment. · Professional and confident communication with field level clients. · Troubleshoot and maintain equipment such as gas-powered pumps, backpack sprayers, and trucks (nothing expected beyond what you are trained) · This is not a sales position
