

Alpha Wolf Electric is seeking an **experienced Electrician** for full-time work in Cold Lake. We are focused on residential, commercial, and industrial settings, with primary work consisting of service calls and First Nations projects. This role includes installing, maintaining, and repairing electrical systems, as well as diagnosing and troubleshooting electrical issues. All work is completed safely and in compliance with applicable codes and standards. The position also involves completing required documentation and working across varied job sites, including upcoming work at 4 Wing Cold Lake, where security clearance is required.

Wage: Competitive - is based on experience and qualifications

Hours of Work: Flexible - based on project requirements and job site demands

Start Date: ASAP

Work Location: Cold Lake

Main Duties

- Install, maintain, and repair electrical systems, panels, and components
- Perform service calls and respond to electrical issues and troubleshooting needs
- Diagnose electrical faults and complete safe, effective repairs
- Inspect and test electrical systems to ensure safety and functionality
- Read and interpret drawings, blueprints, and technical diagrams (as required)
- Ensure all work complies with electrical codes, safety standards, and regulations
- Maintain accurate service records and complete required documentation
- Use electrical tools, testing equipment, and hand tools safely and effectively
- Communicate professionally with clients, site supervisors, and team members
- Work in a variety of environments including residential, commercial, industrial, and First Nations sites

Required Skills

- Strong troubleshooting and diagnostic skills
- Ability to work independently and as part of a team
- Excellent communication and customer service skills
- Strong understanding of electrical systems and safety practices
- Ability to read and interpret technical information is considered an asset
- Conduit bending experience is considered an asset
- Strong attention to detail and problem-solving ability
- Ability to work in varied environments and adapt to changing job sites
- Physically capable of demanding work including lifting, climbing ladders, and working at heights

Education/Certification Required

- High school diploma or equivalent
- Electrical apprenticeship completed OR equivalent hands-on experience

- Valid driver's licence and clean driver's abstract
- CSTS and WHMIS certification required
- First Aid certification considered an asset
- Must be able to pass criminal record check and security clearance (due to work at 4 Wing Cold Lake)

Experience Required

- Minimum 2+ years hands-on electrical experience required
- Experience in residential, commercial, and industrial electrical work
- Service call experience strongly preferred
- Apprentices with strong practical experience may be considered
- Experience with scissor lifts, AWP (aerial work platforms), and fall arrest systems is an asset
